# Contents of Volume 59

**No. 1. JULY 1985**

**ANNOUNCEMENT** 1

Pressure-flow relationships of endotracheal tubes during high-frequency ventilation
*N. Gavriely, J. Solway, S. H. Loring, J. P. Butler, A. S. Slutsky, and J. M. Drazen* 3

Free, glucuronide, and sulfate catecholamines in the rat: effect of hypoxia
*J. Claustre, R. Favre, J. M. Cottet-Emard, and L. Peyrin* 12

Respiration of conscious kittens in acute hypoxia and effect of almitrine bismesylate
*H. B. McCooke and M. A. Hanson* 18

Testosterone and muscle hypertrophy in female rats
*F. E. Kuhn and S. R. Max* 24

Increased gravitational stress does not alter maximum expiratory flow
*D. Pyszczynski, S. N. Mink, and N. R. Anthonisen* 28

Effect of elastic loading on ventilatory pattern during progressive exercise
*A. D. D'Urzo, K. R. Chapman, and A. S. Rebuck* 34

Promethazine or DPPD pretreatment attenuates oleic acid-induced injury in isolated canine lungs
*M. I. Townsley, G. E. Taylor, R. J. Korthuis, and A. E. Taylor* 39

Polymorphonuclear leukocyte: arachidonate edema
*D. M. Shasby, S. S. Shasby, and M. J. Peach* 47

Bradykinin-induced chemoreflexes from skeletal muscle: implications for the exercise reflex
*C. L. Stebbins and J. C. Longhurst* 56

Nicotine-induced respiratory effects of cigarette smoke in dogs
*J. J. Hartiala, C. Mapp, R. A. Mitchell, and W. M. Gold* 64

Relation of prostanoids to strength of hypoxic vasoconstriction in dogs with lobar atelectasis
*R. C. Garrett and H. M. Thomas III* 72

Mechanical output following muscle stretch in forearm supination against inertial loads
*A. E. Chapman, G. E. Caldwell, and W. S. Selbie* 78

Treadmill vs. floor walking: kinematics, electromyogram, and heart rate
*M. P. Murray, G. B. Spurr, S. B. Sepic, G. M. Gardner, and L. A. Mollinger* 87

Calcium chelators increase airway responsiveness
*H. Downes and C. A. Hirshman* 92

Effects of elastase and cigarette smoke on alveolar epithelial permeability
*R. P. Schmid, D. Wangensteen, J. Hoidal, B. Gosnell, and D. Niewoehner* 96

In vivo $^{31}$P-NMR in human muscle: transient patterns with exercise
*P. A. Molé, R. L. Coulson, J. R. Caton, B. G. Nichols, and T. J. Barstow* 101

Effects of almitrine on hypoglossal and phrenic electroneurograms
*D. E. Weese-Mayer, R. T. Brouillette, L. Klemka, and C. E. Hunt* 105

Hypoxia-induced activation in small isolated pulmonary arteries from the cat
*J. A. Madden, C. A. Dawson, and D. R. Harder* 113

Injury to skeletal muscle fibers of mice following lengthening contractions
*K. K. McCully and J. A. Faulkner* 119

Adaptive response of hypertrophied skeletal muscle to endurance training
*M. Riedy, R. L. Moore, and P. D. Gollnick* 127

Muscle performance and metabolism in maximal isokinetic cycling at slow and fast speeds
*N. L. Jones, N. McCartney, T. Graham, L. L. Spriet, J. M. Kowalchuk, G. J. F. Heigenhauser, and J. R. Sutton* 132

Calcium uptake in mitochondria from different skeletal muscle types
*W. L. Sembrowich, J. J. Quintinskie, and G. Li* 137

Effect of normoxemic and hypoxemic exercise on renin and aldosterone
*J. W. Shigeoka, G. L. Colice, and G. Ramirez* 142

Creatine kinase-MB isoenyzme adaptations in stressed human skeletal muscle of marathon runners
*F. S. Apple, M. A. Rogers, D. C. Casal, W. M. Sherman, and J. L. Ivy* 149

Effects of elevated and exercise-reduced muscle glycogen levels on insulin sensitivity
*J. L. Ivy, B. A. Frishberg, S. W. Farrell, W. J. Miller, and W. M. Sherman* 154

Effect of the larynx on oscillatory flow in the central airways: a model study
*A. S. Menon, M. E. Weber, and H. K. Chang* 160

Comparison of chemoreflex gains obtained with two different methods in cats
*J. DeGoede, A. Berkenbosch, D. S. Ward, J. W. Bellville, and C. N. Olievier* 170

Regulation of increase in anastomotic blood flow following pulmonary arterial occlusion
*S. K. Jindal, S. Lakshminarayanan, W. Kirk, and J. Butler* 180

Dynamic exercise training in foxhounds. I. Oxygen consumption and hemodynamic responses
*T. I. Musch, G. C. Haidet, G. A. Ordway, J. C. Longhurst, and J. H. Mitchell* 183

Dynamic exercise training in foxhounds. II. Analysis of skeletal muscle
*D. Parsons, T. I. Musch, R. L. Moore, G. C. Haidet, and G. A. Ordway* 190

Neural and humoral factors in control of tracheal caliber
*G. S. Mitchell and E. H. Vidruk* 198

Serial determination of lung volume in small animals by nitrogen washout
*T. A. Standaert, W. A. LaFramboise, R. E. Tuck, and D. E. Woodrum* 205

Kinetics of oxygen uptake and heart rate at onset of exercise in children
*D. M. Cooper, C. Berry, N. Lamarra, and K. Wasserman* 211

Expiratory effects of vagal stimulation in newborn kittens
*T. Trippenbach and G. Kelly* 218

Effects of tonic vagal input on breathing pattern in newborn rabbits
*T. Trippenbach, G. Kelly, and D. Marlot* 223

Influence of nicotine in cigarette smoke on acute ventilatory responses in awake dogs
*L.-Y. Lee, R. F. Morton, and D. T. Frazier* 229

Submaximal exercise responses of tetraplegics and paraplegics
*K. D. Coutts, E. C. Rhodes, and D. C. McKenzie* 237

Segmental pulmonary vascular resistance in progressive hydrostatic and permeability edema
*C. G. Wang, T. S. Hakim, R. P. Michel, and H. K. Chang* 242

Comparison of thermal responses between rest and leg exercise in water
*M. M. Toner, M. N. Sawka, W. L. Holden, and K. B. Pandolf* 248

Effects of histamine on bronchial artery blood flow and bronchomotor tone
*W. M. Long, C. L. Sprung, H. El Fawal, L. D. Yerger, P. Eyre, W. M. Abraham, and A. Wanner* 254

**SPECIAL COMMUNICATIONS**

Respiratory resistance in dogs by the single-breath and the forced oscillation methods
*A. Harf, M. Decramer, W. Zin, J. Milic-Emili, and H. K. Chang* 262

A technique for unilateral installation of agents into the rat lung
*B. A. Dubaybo and L. A. Thet* 266

Diaphragmatic pressures: transvenous vs. direct phrenic nerve stimulation
*R. F. Planas, R. H. McBrayer, and P. A. Koen* 269

Moment analysis of multibreath nitrogen washout in young children
*M. A. Wall* 274

**ABSTRACTS FROM CURRENT LITERATURE** 280

CONTENTS OF VOLUME 59

## No. 2. AUGUST 1985

Circulatory adaptation to bimodal respiration in the dipnoan lungfish
*A. P. Fishman, R. G. DeLaney, and P. Laurent* 285

Mechanical aspects of chest wall distortion
*J. P. Mortola, M. Saetta, G. Fox, B. Smith, and S. Weeks* 295

Measurement of bronchial arterial blood flow and bronchovascular resistance in sheep
*N. B. Charan, G. M. Turk, and R. Ripley* 305

Torque-velocity characteristics and muscle fiber type in human vastus lateralis
*E. A. Froese and M. E. Houston* 309

Mitogenic effect of endotoxin on lung and tolerance of rats to hyperoxia
*M. Koizumi, L. Frank, and D. Massaro* 315

Endurance training in humans: aerobic capacity and structure of skeletal muscle
*H. Hoppeler, H. Howald, K. Conley, S. L. Lindstedt, H. Claassen, P. Vock, and E. R. Weibel* 320

Airway resistance and respiratory muscle function in snorers during NREM sleep
*J. B. Skatrud and J. A. Dempsey* 328

Effect of $\beta$-adrenoceptor blockade on $H^+$ and $K^+$ flux in exercising humans
*A. Katz, K. Sahlin, and A. Juhlin-Dannfelt* 336

Differences in endogenous pyrogen fevers induced by iv and icv routes in rabbits
*J. T. Stitt and H. A. Bernheim* 342

Blood viscosity responses to maximal exercise in endurance-trained and sedentary female subjects
*D. G. Martin, E. W. Ferguson, S. Wigutoff, T. Gawne, and E. B. Schoomaker* 348

Pulmonary and cardiovascular changes in hyperreactive rats from citric acid aerosols
*R. Hamel and A. W. Ford-Hutchinson* 354

Serum erythropoietin in humans at high altitude and its relation to plasma renin
*J. S. Milledge and P. M. Cotes* 360

Mechanical impedance as determinant of inspiratory neural drive during exercise in humans
*S. N. A. Hussain, R. L. Pardy, and J. A. Dempsey* 365

Estimation of ventilation-perfusion inequality by inert gas elimination without arterial sampling
*P. D. Wagner, C. M. Smith, N. J. H. Davies, R. D. McEvoy, and G. E. Gale* 376

Metabolic rate and breathing during sleep
*D. P. White, J. V. Weil, and C. W. Zwillich* 384

Function of mature coronary collateral vessels and cardiac performance in the exercising dog
*J. C. Longhurst, S. Motohara, J. M. Atkins, and G. A. Ordway* 392

Human esophageal pressures and chest wall configuration in upright and head-down posture
*I. Clarysse and M. Demedts* 401

Acclimation of rats following stepwise or direct exposure to heat
*A. R. Gwosdow, E. L. Besch, and C. L. Chen* 408

Effect of thermal history on the rat's response to varying environmental temperature
*A. R. Gwosdow and E. L. Besch* 413

Effect of alcohol on apnea reflexes in young lambs
*J. Grogaard, A. Van den Abbeele, and H. Sundell* 420

Effect of exercise on plasma interferon levels
*A. Viti, M. Muscettola, L. Paulesu, V. Bocci, and A. Almi* 426

Substrate usage during prolonged exercise following a preexercise meal

Role of hemoglobin $P_{50}$ in $O_2$ transport during normoxic and hypoxic exercise in the dog
*P. T. Schumacker, A. J. Suggett, P. D. Wagner, and J. B. West* 749

Effect of swimming training on cardiac function and myosin ATPase activity in SHR
*R. V. Sharma, R. J. Tomanek, and R. C. Bhalla* 758

CONTENTS OF VOLUME 59

Exercise hyperthermia as a factor limiting physical performance: temperature effect on muscle metabolism
*S. Kozlowski, Z. Brzezińska, B. Kruk, H. Kaciuba-Uścilko, J. E. Greenleaf, and K. Nazar* 766

Obesity alters regional ventilation in lateral decubitus position
*A. N. Hurewitz, H. Susskind, and W. H. Harold* 774

Bronchoconstriction in asthmatics exposed to sulfur dioxide during repeated exercise
*L. J. Roger, H. R. Kehrl, M. Hazucha, and D. H. Horstman* 784

Control of exercise hyperpnea during hypercapnia in humans
*C.-S. Poon and J. G. Greene* 792

Role of hilar nerve afferents in hyperpnea of exercise
*C. Flynn, H. V. Forster, L. G. Pan, and G. E. Bisgard* 798

Effect of hilar nerve denervation on breathing and arterial $P_{CO_2}$ during $CO_2$ inhalation
*C. Flynn, H. V. Forster, L. G. Pan, and G. E. Bisgard* 807

Haloperidol-induced suppression of carotid chemoreception in vitro
*W. F. Nolan, D. F. Donnelly, E. J. Smith, and R. E. Dutton* 814

Relation between electromyogram and force in fatigue
*H. Kranz, J. F. Cassell, and G. F. Inbar* 821

Effect of voluntary exercise on longevity of rats
*J. O. Holloszy, E. K. Smith, M. Vining, and S. Adams* 826

Enhanced metabolic response to caffeine in exercise-trained human subjects
*J. LeBlanc, M. Jobin, J. Côté, P. Samson, and A. Labrie* 832

Convection- and diffusion-dependent ventilation maldistribution in normal subjects
*A. B. H. Crawford, M. Makowska, M. Paiva, and L. A. Engel* 838

Differential response of respiratory muscles to airway occlusion in infants
*W. A. Carlo, M. J. Miller, and R. J. Martin* 847

Effects of detraining on responses to submaximal exercise
*E. F. Coyle, W. H. Martin III, S. A. Bloomfield, O. H. Lowry, and J. O. Holloszy* 853

Regional lung water and hematocrit determined by positron emission tomography
*D. P. Schuster, M. A. Mintun, M. A. Green, and M. M. Ter-Pogossian* 860

Postnatal maturation of respiration in intact and carotid body-chemodenervated lambs
*M. A. Bureau, J. Lamarche, P. Foulon, and D. Dalle* 869

Use of aerosols to measure in vivo volume-dependent changes in lung air space dimensions
*W. D. Bennett and W. Mitzner* 875

Vascular and airway effects of endogenous cyclooxygenase products during lung inflation
*H. Baier, L. Yerger, R. Moas, and A. Wanner* 884

Cardiac response to submaximal exercise in dogs susceptible to sudden cardiac death
*G. E. Billman, P. J. Schwartz, J. P. Gagnol, and H. L. Stone* 890

Breathing pattern during and after exercise of different intensities
*M. Younes and J. Burks* 898

Headache at high altitude is not related to internal carotid arterial blood velocity
*J. T. Reeves, L. G. Moore, R. E. McCullough, R. G. McCullough, G. Harrison, B. I. Tranmer, A. J. Micco, A. Tucker, and J. V. Weil* 909

Recovery in skeletal muscle contractile function after prolonged hindlimb immobilization
*R. H. Fitts and C. J. Brimmer* 916

Plasma renin activity and forearm blood flow in paraplegic humans
*P. R. Freund and G. L. Brengelmann* 924

Long-term clearance of liquid and protein from the lungs of unanesthetized sheep
*M. A. Matthay, Y. Berthiaume, and N. C. Staub* 928

Lactate, pyruvate, and lactate-to-pyruvate ratio during exercise and recovery
*K. Wasserman, W. L. Beaver, J. A. Davis, J.-Z. Pu, D. Heber, and B. J. Whipp* 935

Hypoxia potentiates, oxygen attenuates deflation-induced reflex tracheal constriction
*E. H. Vidruk* 941

Plasma levels of renin, angiotensin II, and 6-ketoprostaglandin $F_{1\alpha}$ in endurance athletes
*R. Fagard, R. Grauwels, D. Groeseneken, P. Lijnen, J. Staessen, L. Vanhees, and A. Amery* 947

Mechanism of hyperoxia-induced pulmonary vascular paralysis: effect of antioxidant pretreatment
*G. H. Gurtner, J. R. Michael, I. S. Farrukh, A. M. Sciuto, and N. F. Adkinson* 953

Regulation of ventilation and oxygen consumption by $\delta$- and $\mu$-opioid receptor agonists
*J. I. Schaeffer and G. G. Haddad* 959

Ventilatory response to fatiguing and nonfatiguing resistive loads in awake sheep
*N. Sadoul, A. R. Bazzy, S. R. Akabas, and G. G. Haddad* 969

Tonic $\beta$-sympathetic activity in the lung periphery in anesthetized dogs
*G. G. Weinmann, E. W. Spannhake, B. Bromberger-Barnea, and H. A. Menkes* 979

Effect of short-duration constant exercise on permeability of cockerel aorta to $^{125}$I-albumin
*M. D. Ezekowitz, M. A. Morgan, J. L. Kelley, D. E. Parker, and H. L. Stone* 985

Effect of sinusoidal forcing of ventilatory volume on avian breathing frequency
*G. O. Ballam, T. L. Clanton, R. P. Kaminski, and A. L. Kunz* 991

## SPECIAL COMMUNICATIONS

New method of respiratory gas analysis: light spectrometer

## No. 4. OCTOBER 1985

Age-related augmentation of plasma catecholamines during dynamic exercise in healthy males
*J. L. Fleg, S. P. Tzankoff, and E. G. Lakatta* 1033

Elevated diaphragm electromyogram during neonatal hypoxic ventilatory depression
*W. A. LaFramboise and D. E. Woodrum* 1040

Effect of exercise on deposition and subsequent retention of inhaled particles
*W. D. Bennett, M. S. Messina, and G. C. Smaldone* 1046

Turnover of phospholipids isolated from fractions of lung lavage fluid
*A. Baritussio, R. Carraro, L. Bellina, A. Rossi, R. Bruni, A. Pettenazzo, and G. Enzi* 1055

CONTENTS OF VOLUME 59

Effect of exercise on epinephrine turnover in trained and untrained male subjects
*M. Kjaer, N. J. Christensen, B. Sonne, E. A. Richter, and H. Galbo* 1061

Effect of head-down tilt on basal plasma norepinephrine and renin activity in humans
*S. R. Goldsmith, G. S. Francis, and J. N. Cohn* 1068

Central adaptation to inspiratory-inhibiting expiratory-prolonging vagal input
*M. Younes and J. Polacheck* 1072

Effect of PEEP on discharge of pulmonary C-fibers in dogs
*M. P. Kaufman, G. A. Ordway, and T. G. Waldrop* 1085

Effects of upper or lower airway anesthesia on hypercapnic ventilation in humans
*P. A. Easton, C. Jadue, M. E. Arnup, R. C. Meatherall, and N. R. Anthonisen* 1090

Opposing hemodynamic effects of substance P on pulmonary vasculature in rabbits
*G. S. Worthen, R. S. Gumbay, D. T. Tanaka, and M. M. Grunstein* 1098

Effect of high-frequency ventilation on gas exchange and pulmonary vascular resistance in lambs
*W. E. Truog and T. A. Standaert* 1104

Effects of hyperoxia on DNA synthesis in cultured porcine aortic endothelial cells
*A. Clément, U. Hübscher, and A. F. Junod* 1110

Evaluation of factors affecting relationship between transcutaneous $Po_2$ and probe temperature
*J. Grønlund* 1117

Plasma-lymph exchange and interstitial distribution volumes of charged macromolecules in the lung
*J. C. Parker, S. Gilchrist, and J. T. Cartledge* 1128

Fast real-time moment-ratio analysis of multibreath nitrogen washout in children
*R. Kraemer and B. Meister* 1137

Hemodynamic effects of anti-G suit inflation in a 1-G environment
*J. F. Seaworth, T. J. Jennings, L. L. Howell, J. W. Frazier, C. D. Goodyear, and E. D. Grassman* 1145

Effect of inspiratory muscle fatigue on breathing pattern
*C. G. Gallagher, V. I. Hof, and M. Younes* 1152

Biochemical response to chronic shortening in unloaded soleus muscles
*S. R. Jaspers, J. M. Fagan, and M. E. Tischler* 1159

Collateral sources of costal and crural diaphragmatic blood flow
*D. Lockhat, S. Magder, and C. Roussos* 1164

Transmission of airway pressure to pleural space during lung edema and chest wall restriction
*R. J. O'Quin, J. J. Marini, B. H. Culver, and J. Butler* 1171

Hemodynamic effects of PEEP applied as a ramp in normo-, hyper-, and hypovolemia
*J. J. Schreuder, J. R. C. Jansen, and A. Versprille* 1178

Bradykinin is degraded in hypoxic lungs and does not affect epithelial permeability
*H. O'Brodovich, J. Kay, and G. Coates* 1185

Calcium secretion in canine tracheal mucosa
*F. J. Al-Bazzaz and T. Jayaram* 1191

Erythrocyte adenosine triphosphate depletion during voluntary hyperventilation
*M. Stäubli, P. Ott, U. Waber, U. P. Stäuble, C. Jeanneret, E. Peheim, and P. W. Straub* 1196

Responses of bulbospinal and laryngeal respiratory neurons to hypercapnia and hypoxia
*W. M. St. John and A. L. Bianchi* 1201

Changes in antidromic latencies of medullary respiratory neurons in hypercapnia and hypoxia
*A. L. Bianchi and W. M. St. John* 1208

Changes in breathing when switching from nares to tracheostomy breathing in awake ponies
*H. V. Forster, L. G. Pan, G. E. Bisgard, C. Flynn, and R. E. Hoffer* 1214

Effect of upper airway $CO_2$ on breathing in awake ponies
*H. V. Forster, L. G. Pan, C. Flynn, G. E. Bisgard, and R. E. Hoffer* 1222

Analysis of sampling errors in biopsy techniques using data from whole muscle cross sections
*J. Lexell, C. Taylor, and M. Sjöström* 1228

Metabolism of norepinephrine during nerve stimulation in dog trachea
*J. A. Russell and K. W. Kircher* 1236

Effect of increases in lung volume on clearance of aerosolized solute from human lungs
*J. D. Marks, J. M. Luce, N. M. Lazar, J. Ngao-Sun Wu, A. Lipavsky, and J. F. Murray* 1242

Effect of increased bronchial venous pressure on lung lymph flow
*N. B. Charan, G. M. Turk, and D. H. Hey* 1249

A study of the variability in the febrile responses of rabbits to endogenous pyrogen
*J. T. Stitt* 1254

Respiratory effects of brief baroreceptor stimuli in the anesthetized dog
*E. L. Dove and P. G. Katona* 1258

Regional differences in erythrocyte transit in normal lungs
*J. C. Hogg, B. A. Martin, S. Lee, and T. McLean* 1266

Important role of glucagon during exercise in diabetic dogs
*D. H. Wasserman, H. L. A. Lickley, and M. Vranic* 1272

Role of β-adrenergic mechanisms during exercise in poorly controlled diabetes
*D. H. Wasserman, H. L. A. Lickley, and M. Vranic* 1282

Asymmetric [$^{14}$C]albumin transport across bullfrog alveolar epithelium
*K. J. Kim, T. R. LeBon, J. S. Shinbane, and E. D. Crandall* 1290

Effect of exercise training on antioxidant enzymes and cardiotoxicity of doxorubicin
*M. M. Kanter, R. L. Hamlin, D. V. Unverferth, H. W. Davis, and A. J. Merola* 1298

Wall motion in expiratory flow limitation: choke and flutter
*P. M. Webster, R. P. Sawatzky, V. Hoffstein, R. Leblanc, M. J. Hinchey, and P. A. Sullivan* 1304

Increased cardiac output increases shunt: role of pulmonary edema and perfusion
*P. H. Breen, P. T. Schumacker, J. Sandoval, I. Mayers, L. Oppenheimer, and L. D. H. Wood* 1313

Rat muscle blood flows during high-speed locomotion
*R. B. Armstrong and M. H. Laughlin* 1322

1342

## No. 5. NOVEMBER 1985

Longitudinal dispersion of gases measured in a model of the bronchial airways
*A. M. van der Kooij and S. C. M. Luijendijk* 1343

Muscle metabolism during exercise in the heat in unacclimatized and acclimatized humans
*D. S. King, D. L. Costill, W. J. Fink, M. Hargreaves, and R. A. Fielding* 1350

Tachyphylaxis to inhaled aerosolized histamine in anesthetized dogs
*S. Shore and J. G. Martin* 1355

Physiological determinants of nocturnal arterial oxygenation in patients with obstructive sleep apnea
*T. D. Bradley, D. Martinez, R. Rutherford, F. Lue, R. F. Grossman, H. Moldofsky, N. Zamel, and E. A. Phillipson* 1364

Effect of 71 ATA He-$O_2$ on organ blood flow in the rat
*L. Aanderud, J. Onarheim, and I. Tyssebotn* 1369

Effects of uncompensated and compensated metabolic acidosis on canine diaphragm
*S. Howell, R. S. Fitzgerald, and C. Roussos* 1376

Can tritiated water-dilution space accurately predict total body water in chukar partridges?
*B. G. Crum, J. B. Williams, and K. A. Nagy* 1383

Hypoxic induction of $Ca^{2+}$-dependent action potentials in small pulmonary arteries of the cat
*D. R. Harder, J. A. Madden, and C. Dawson* 1389

Thermoregulatory and blood responses during exercise at graded hypohydration levels
*M. N. Sawka, A. J. Young, R. P. Francesconi, S. R. Muza, and K. B. Pandolf* 1394

Pulmonary physiological and surfactant changes during injury and recovery from hyperoxia
*B. A. Holm, R. H. Notter, J. Siegle, and S. Matalon* 1402

Exercise training and its effects with renal hypertensive rats
*K. D. Marcus and C. M. Tipton* 1410

Effects of leukotriene $D_4$ on mucociliary and respiratory function in allergic and nonallergic sheep
*E. W. Russi, W. M. Abraham, G. A. Chapman, J. S. Stevenson, E. Codias, and A. Wanner* 1416

Respiration during hypothermia: effect of rewarming intermediate areas of ventral medulla
*J. P. Kiley, F. L. Eldridge, and D. E. Millhorn* 1423

Antagonism by theophylline of respiratory inhibition induced by adenosine
*F. L. Eldridge, D. E. Millhorn, and J. P. Kiley* 1428

Chronic electrical stimulation of nongrafted and grafted skeletal muscles in rats
*P. E. Ciske and J. A. Faulkner* 1434

Effects of training on biochemical and functional properties of rodent neonatal heart
*A. M. MacIntosh, K. M. Baldwin, R. E. Herrick, and W. M. Mullin* 1440

Incompatibility of endurance- and strength-training modes of exercise
*G. A. Dudley and R. Djamil* 1446

Influence of testosterone on ventilation and chemosensitivity in male subjects
*D. P. White, B. K. Schneider, R. J. Santen, M. McDermott, C. K. Pickett, C. W. Zwillich, and J. V. Weil* 1452

Effects of acute pleural effusion on respiratory system mechanics in dogs
*W. S. Krell and J. R. Rodarte* 1458

Effects of flunixin meglumine on cardiopulmonary responses to endotoxin in ponies
*N. C. Olson, R. E. Meyer, and D. L. Anderson* 1464

Exercise training and "ventilation threshold" in elderly
*S. G. Thomas, D. A. Cunningham, J. Thompson, and P. A. Rechnitzer* 1472

CONTENTS OF VOLUME 59

Ontogeny of respiratory control and pulmonary mechanics in newborn rabbits
*M. M. Grunstein and D. T. Tanaka* 1477

Diaphragmatic responses to graded stimulation of pulmonary C-fibers with capsaicin
*J. R. Coast and S. S. Cassidy* 1487

Effects of hemodilution on $O_2$ transport in high-altitude polycythemia
*R. M. Winslow, C. C. Monge, E. G. Brown, H. G. Klein, F. Sarnquist, N. J. Winslow, and S. S. McKneally* 1495

Decompression outcome following saturation dives with multiple inert gases in rats
*R. S. Lillo, E. T. Flynn, and L. D. Homer* 1503

Separation of factors responsible for change in breathing pattern induced by instrumentation
*W. Perez and M. J. Tobin* 1515

Hindlimb muscular contraction reflexly decreases total pulmonary resistance in dogs
*M. P. Kaufman, K. J. Rybicki, and J. H. Mitchell* 1521

Diaphragm fatigue induced by inspiratory resistive loading in spontaneously breathing rabbits
*T. Aldrich and D. Appel* 1527

Mode of neural control mediating rat tail vasodilation during heating
*D. S. O'Leary, J. M. Johnson, and W. F. Taylor* 1533

Relationship for gas transport during high-frequency ventilation in dogs
*J. G. Venegas, J. Custer, R. D. Kamm, and C. A. Hales* 1539

Factors affecting tissue volume measurements in normal and edematous dog lungs
*G. J. Huchon, A. Lipavsky, P. Pangburn, J. M. Hoeffel, G. Jibelian, and J. F. Murray* 1548

cExtra-alveolar vessel fluid filtration coefficients in excised and in situ canine lobes
*R. K. Albert, W. Kirk, C. Pitts, and J. Butler* 1555

Effects of hypercapnia on inspiratory and expiratory muscle activity during expiration
*A. Oliven, E. C. Deal, Jr., S. G. Kelsen, and N. S. Cherniack* 1560

Interspike interval dependency from arterial chemoreceptors
*D. F. Donnelly, W. F. Nolan, E. J. Smith, and R. E. Dutton* 1566

Effects of high-frequency and conventional ventilation on the premature lamb lung
*A. Solimano, C. Bryan, A. Jobe, M. Ikegami, and H. Jacobs* 1571

Effects of hemodynamic edema formation on peripheral vs. central airway mechanics
*M. Ishii, N. Matsumoto, T. Fuyuki, W. Hida, M. Ichinose, H. Inoue, and T. Takishima* 1578

*p*-Aminohippurate transport in canine tracheal epithelium
*M. M. Cloutier and K. M. Lesniak* 1585

Effects of deep inhalation in asthma: relative airway and parenchymal hysteresis
*C. B. Burns, W. R. Taylor, and R. H. Ingram, Jr.* 1590

Chemosensitivity of crayfish slowly adapting stretch receptors to nicotine
*R. F. Taylor and D. T. Frazier* 1597

Ozone inhalation effects consequent to continuous exercise in females: comparison to males
*S. K. Lauritzen and W. C. Adams* 1601

Ventilatory and arousal patterns during sleep in normal young and elderly subjects
*E. T. Shore, R. P. Millman, D. A. Silage, D.-C. C. Chung, and A. I. Pack* 1607

Sodium-amino acid cotransport by type II alveolar epithelial cells
*S. E. S. Brown, K. J. Kim, B. E. Goodman, J. R. Wells, and E. D. Crandall* 1616

On the maximum likelihood estimation of respiratory response slopes
*D. L. Sherrill and G. D. Swanson* 1623

Carbohydrate metabolism during and after exercise in rats: studies with radioglucose
*B. Sonne and H. Galbo* 1627

Role of liver nerves and adrenal medulla in glucose turnover in running rats
*B. Sonne, K. J. Mikines, E. A. Richter, N. J. Christensen, and H. Galbo* 1640

## SPECIAL COMMUNICATIONS

Dynamic knee extension as a model for study of isolated exercising muscle in humans
*P. Andersen, R. P. Adams, G. Sjøgaard, A. Thorboe, and B. Saltin* 1647

Forced oscillation technique: comparison of two devices
*H. Franken, M. Cauberghs, A Ringelhann, J. Clément, and K. P. Van de Woestijne* 1654

Electrode and cuvette for rapid continuous $CO_2$ tension and pH measurement in blood
*S. A. Katz, A. C. Roth, and E. O. Feigl* 1660

Implantable device for drug delivery and blood sampling in the rat
*J. F. Chester, S. A. Weitzman, and R. A. Malt* 1665

## BRIEF REVIEW

Opioids and breathing
*T. V. Santiago and N. H. Edelman* 1675

Volume and density changes of biological fluids with temperature
*H. Hinghofer-Szalkay* 1686

Renin-angiotensin system: oral contraception and exercise in healthy female subjects
*I. A. Huisveld, F. M. H. Derkx, B. N. Bouma, W. B. M. Erich, and M. A. D. H. Schalekamp* 1690

Mechanism of transient nocturnal hypoxemia in hypoxic chronic bronchitis and emphysema
*J. R. Catterall, P. M. A. Calverley, W. MacNee, P. M. Warren, C. M. Shapiro, N. J. Douglas, and D. C. Flenley* 1698

Vascular and interstitial mechanics in canine pulmonary emphysema
*S. N. Mink, H. W. Unruh, and L. Oppenheimer* 1704

Muscle fiber types and size in trained and untrained muscles of elite athletes
*P. A. Tesch and J. Karlsson* 1716

Comparison of febrile responsiveness of rats and rabbits to endogenous pyrogen
*J. T. Stitt, S. G. Shimada, and H. A. Bernheim* 1721

Pulmonary pathophysiological changes in sheep caused by endotoxin precursor, lipid X
*K. E. Burhop, R. A. Proctor, R. B. Helgerson, C. H. R. Raetz, J. R. Starling, and J. A. Will* 1726

Airway dynamics in transition between peak and maximal expiratory flow
*O. F. Pedersen, S. Lyager, and R. H. Ingram, Jr.* 1733

Effects of changes in $CO_2$ partial pressure on the sensation of respiratory drive
*R. J. Castele, A. F. Connors, and M. D. Altose* 1747

Respiratory responses to ventilatory loading following low cervical spinal cord injury
*J. S. Kelling, A. F. DiMarco, S. B. Gottfried, and M. D. Altose* 1752

Effect of transpulmonary and driving pressures on collateral gas flow in dog lungs
*L. E. Olson* 1757

Aerosol deposition in the airway model with excessive mucus secretions
*C. S. Kim and M. A. Eldridge* 1766

Functional capacities of lungs and thorax in beagles after prolonged residence at 3,100 m
*R. L. Johnson, Jr., S. S. Cassidy, R. F. Grover, J. E. Schutte, and R. H. Epstein* 1773

CONTENTS OF VOLUME 59

Changes in lung volume and deflation stability in hyaline membrane disease
*J. C. Jackson, T. A. Standaert, W. E. Truog, J. H. Murphy, S. Palmer, E. Y. Chi, D. E. Woodrum, J. F. Watchko, and W. A. Hodson* 1783

Respiratory impedance measured with head generator to minimize upper airway shunt
*R. Peslin, C. Duvivier, J. Didelon, and C. Gallina* 1790

Pulmonary neutrophil kinetics in sheep: effects of altered hemodynamics
*J. A. Cooper, R. Bizios, and A. B. Malik* 1796

Distribution of respiratory muscle and organ blood flow during endotoxic shock in dogs
*S. N. A. Hussain and C. Roussos* 1802

Effects of catecholamines on lactic acid output during progressive working contractions
*W. N. Stainsby, C. Sumners, and P. D. Eitzman* 1809

Effect of chronic cigarette smoke exposure on pulmonary vasomotion in beagle dogs
*T. S. Hakim, M. King, C. G. Wang, and M. Cosio* 1815

Effects of raised body temperature on reasoning, memory, and mood
*R. L. Holland, J. A. Sayers, W. R. Keatinge, H. M. Davis, and R. Peswani* 1823

Regional deposition of particles in the lung during cigarette smoking in humans
*M. G. Pearson, M. J. Chamberlain, W. K. C. Morgan, and S. Vinitski* 1828

Effects of breathing pattern on inspiratory muscle endurance in humans
*T. L. Clanton, G. F. Dixon, J. Drake, and J. E. Gadek* 1834

Rib cage and diaphragm-abdomen compliance in humans: effects of age and posture
*M. Estenne, J.-C. Yernault, and A. De Troyer* 1842

Lung volume dependence of esophageal pressure in the neck
*I. G. Brown, P. A. McClean, P. M. Webster, V. Hoffstein, and N. Zamel* 1849

Plasma hormonal responses at graded hypohydration levels during exercise-heat stress
*R. P. Francesconi, M. N. Sawka, K. B. Pandolf, R. W. Hubbard, A. J. Young, and S. Muza* 1855

Early increases in coronary vascular reserve in exercised rats are independent of cardiac hypertrophy
*P. M. Buttrick, H. A. Levite, T. F. Schaible, G. Ciambrone, and J. Scheuer* 1861

Effect of repeated antigen exposure on antigen- and mediator-induced bronchospasm in sheep
*S. R. Kleeberger, E. M. Wagner, G. K. Adams III, A. M. Dannenberg, Jr., and E. W. Spannhake* 1866

Increased in vitro airway responsiveness in sheep following repeated exposure to antigen in vivo
*E. M. Wagner, S. R. Kleeberger, E. W. Spannhake, and G. K. Adams III* 1874

Role of the parasympathetic nervous system in acute lung response to ozone
*W. S. Beckett, W. F. McDonnell, D. H. Horstman, and D. E. House* 1879

Effects of enhanced ventricular filling on cardiac pump performance in exercising dogs
*L. D. Horwitz and J. Lindenfeld* 1886

Nature and distribution of vascular resistance in hypoxic pig lungs
*P. Rock, G. A. Patterson, S. Permutt, and J. T. Sylvester* 1891

Influence of menstrual cycle on shivering, skin blood flow, and sweating responses measured at night
*V. Hessemer and K. Brück* 1902

Influence of menstrual cycle on thermoregulatory, metabolic, and heart rate responses to exercise at night
*V. Hessemer and K. Brück* 1911

Significance of thromboxane generation in ozone-induced airway hyperresponsiveness in dogs
*H. Aizawa, K. F. Chung, G. D. Leikauf, I. Ueki, R. A. Bethel, P. M. O'Byrne, T. Hirose, and J. A. Nadel* 1918

Interdependence of regional expiratory flow
*T. A. Wilson, J. J. Fredberg, J. R. Rodarte, and R. E. Hyatt* 1924

Skeletal muscle metabolism during exercise is influenced by heat acclimation
*A. J. Young, M. N. Sawka, L. Levine, B. S. Cadarette, and K. B. Pandolf* 1929

CONTENTS OF VOLUME 59

Improved detection of lactate threshold during exercise using a log-log transformation
*W. L. Beaver, K. Wasserman, and B. J. Whipp* 1936

Leukotriene $B_4$ induces airway hyperresponsiveness in dogs
*P. M. O'Byrne, G. D. Leikauf, H. Aizawa, R. A. Bethel, I. F. Ueki, M. J. Holtzman, and J. A. Nadel* 1941

Respiratory load compensation in chronic airway obstruction
*M. Lopata, E. Önal, and G. Cromydas* 1947

Ventilatory responses of hamsters and rats to hypoxia and hypercapnia
*B. R. Walker, E. M. Adams, and N. F. Voelkel* 1955

Dependence of diaphragmatic length on lung volume and thoracoabdominal configuration
*S. H. Loring, J. Mead, and N. T. Griscom* 1961

Endogenous plasma proteins in edematous lungs and alveolar fluid in rabbits
*D. J. Pavlin, R. Haschke, M. L. Nessly, and F. W. Cheney* 1971

**SPECIAL COMMUNICATIONS**

Lung myeloperoxidase as a measure of pulmonary leukostasis in rabbits
*S. E. Goldblum, K.-M. Wu, and M. Jay* 1978

**RAPID COMMUNICATIONS**

Dry air-induced constriction in lung periphery: a canine model of exercise-induced asthma
*A. N. Freed, B. Bromberger-Barnea, and H. A. Menkes* 1986

Muscle fatigue in McArdle's disease studied by $^{31}$P-NMR: effect of glucose infusion
*S. F. Lewis, R. G. Haller, J. D. Cook, and R. L. Nunnally* 1991

Dimethylthiourea consumption reflects $H_2O_2$ concentrations and severity of acute lung injury
*J. H. Jackson, C. W. White, N. B. Parker, J. W. Ryan, and J. E. Repine* 1995

**MEETING REPORT**

Research on cystic fibrosis: step 3?
*M. J. Welsh and J. H. Widdicombe* 1999
